Child Sexual Exploitation (CSE) is a form of sexual abuse

CSE involves perpetrators grooming their victims in various ways, such as in person, via mobiles or online to gain their trust before emotionally and sexually abusing them for their own gain.

As a business you may notice strange behaviour involving children. You may see young people or groups of men being dropped off at different locations. It may be nothing, but it might be something. If you are worried, it is important that you don't keep any concerns to yourself.
